

Premium reseller

GeoVista AB is since 2016 a premium reseller for Tensor Research products in Europe, including the premium potential field modelling program ModelVision. GeoVista has used ModelVision and associated products for many years in exploration and engineering projects.

Tensor Research
developers of
ModelVision

Software

The suite of geophysics software consists of:

ModelVision and the additional modules **AutoMag** and **UBC Model Builder**.

Training

Geophysics software training is tailored to suit the customers requirements.

We have trained staff from mining companies, exploration companies, geological surveys and consultant companies.
